Integration: REST APIs, SOAP APIs, Web Services, Middleware, LMS Integration (Kona LMS)

Frontend: Angular, React.js, Next.js, Lightning Design System, HTML5, CSS3, JavaScript, TypeScript

Backend: Spring Boot, NestJS, Node.js, Express.js, JSP, Servlets

Databases: MySQL, SQL, Firebase, MongoDB, SOQL, SOSL

Tools: Git, VS Code, JIRA, Azure, Trello, Postman, Salesforce CLI, Developer Console

Methodologies: Agile, Scrum, Test-Driven Development

PROFESSIONAL EXPERIENCE

Salesforce Developer (Trainee)

Digital-Lync

Sept 2025 – Present

Hyderabad, India

- Developed and implemented **Sales Cloud** and **Service Cloud** solutions for an educational services company, supporting 500+ users.
- Designed custom **Apex** code, **Visualforce** pages, and **Aura components** to meet complex business requirements.
- Built and maintained integrations between Salesforce and external systems including **Kona LMS** using REST/SOAP APIs.
- Implemented automated business processes using **Lightning Flows**, **Process Builder**, and **Workflow Rules**.

- Developed **Lightning Web Components** with decorators, wiring services, and imperative Apex calls for enhanced UI functionality.
- Created complex **Batch Apex**, **Scheduled Apex**, and **Queueable Apex** for large-scale data processing.
- Configured comprehensive security model including OWD settings, profiles, permission sets, roles, and sharing rules.
- Built custom reports and dashboards for executive leadership providing real-time business insights.
- Implemented web-to-lead generation, email automation, and custom notifications for marketing campaigns.
- Worked with Agile methodologies using Azure and Trello for sprint planning and project tracking.

Senior Software Engineer

Sept 2025 – Present

Custom Furnish

Hyderabad, India

- Led development of modular furniture e-commerce platform with Angular, integrating RESTful APIs for real-time data sync.
- Designed reusable components and services to improve code modularity and maintainability across the application.
- Optimized application performance using lazy loading and AOT compilation, reducing load times by 40%.
- Conducted comprehensive unit testing with Jasmine and Karma ensuring 85%+ code coverage.
- Mentored junior developers on best practices and conducted code reviews to maintain development standards.

Software Development Engineer

Dec 2021 – Sept 2025

Infinity Learn (Sri Chaitanya Group)

Hyderabad, India

- Delivered 15+ full-stack projects using Angular, Spring Boot, NestJS, and MySQL for education technology platforms.
- Developed real-time student testing and evaluation tools with backend service integration supporting 100K+ submissions.
- Implemented SEO optimization and performance improvements on public platforms (scoreedge.net, srichaitanyameta.com).
- Built comprehensive unit testing strategies using Jest, Jasmine, and Karma to ensure code quality and reliability.
- Received **Spot Award** for exceptional performance in critical module deliveries and production issue resolution.
- Collaborated with cross-functional teams and mentored junior developers on development best practices.

KEY SALESFORCE PROJECTS

Sales & Service Cloud Implementation | *Apex, Lightning, Visualforce, REST API*

- Implemented end-to-end Salesforce solution for Digital-Lync with custom objects, automation, and third-party integrations.
- Configured Sales Cloud with custom reports, dashboards, and automated lead management workflows.

Kona LMS Integration | *Salesforce, REST API, Middleware, Custom Objects*

- Built bidirectional integration between Salesforce and Kona Learning Management System using REST APIs.
- Developed custom Apex controllers for real-time data synchronization between platforms.

Lightning Web Components Suite | *LWC, JavaScript, Apex, Lightning Design System*

- Created reusable Lightning Web Components for student enrollment, course management, and performance tracking.
- Implemented wire services and imperative Apex calls for efficient data retrieval and DOM manipulation.

Automated Lead Management System | *Process Builder, Flow Builder, Apex Triggers*

- Designed automated lead routing and assignment based on geography, course interest, and lead score.
- Implemented email automation and custom notifications for sales team increasing conversion by 25%.

SOFTWARE DEVELOPMENT PROJECTS

Meta – Online Class Platform | *Angular, Firebase, Spring Boot, MySQL*

- Developed comprehensive modules for live classes, test creation, and homework tracking supporting 100K+ submissions.

ScoreEdge Enrollment Site | *React.js, Material UI, SEO, Next.js*

- Built region-wise test enrollment platform with server-side rendering and SEO optimization at scoreedge.net.

Knowledge Hub – Internal Portal | *Angular, Spring Boot, MySQL*

- Developed internal resource management system with secure authentication, role management, and content tracking.

Student Reports System | *NestJS, Material UI, CSS3*

- Implemented real-time performance tracking and automated PDF report generation with weak area detection algorithms.

EDUCATION

Centre for Development of Advanced Computing (CDAC)

Post Graduate Diploma in Advanced Computing

2021

Hyderabad, India

ADDITIONAL CERTIFICATIONS

Frontend Development: HTML5, CSS3, JavaScript, React.js – Great Learning

Backend Development: Spring Boot, Hibernate, JSP, Servlets – Great Learning
